

Shrikant Sharat Kandula – Rèsùmè

+91 98674 88842 · shrikantsharat.k@gmail.com · sharats.me · March 1988

Namaste! I'm Shri, from India. I'm interested in working with **remote** companies, working close to the **Indian time zone**. Prefer software companies.

Skills / Highlights

1. **Languages:** Python, Javascript, Typescript, Java, SQL, Bash, Go, ... English, Hindi, Telugu.
2. Several open source projects and contributions on [GitHub](#). May provide a better idea of my experience than this document.
3. Currently building [Prestige](#), as an open-source side project, mostly because I needed a tool like this for myself.
4. Vim user since 2007, IntelliJ IDEA Ultimate since 2015, are both still my preferred hammers at most nails.
5. **Actuarial Subjects:** Financial Math, Financial Econ, Statistics, Models, +5 more.
6. [Certified AWS Developer Associate](#), which means, well, that I can tell the difference between EC2 and raisins.

Experience

Most recent at the top. Intentionally brief, only to serve as conversation starters.

Mar 2020 — Developer with **Appsmith**, Remote

Building a new-age open-source low-code tool to make building internal tools super easy, super focused, and super fun.

Nov 2017 — Developer with **S&P Global**, Mumbai

Worked with a team on a Spring application for computing custom indices based on the day's market data. Each custom index's calculation was coded as a Python script, that was executed in a Jython sandbox. The computed index values were then stored and used for EOD report generation.

Dec 2014 – Consultant with **Calypso Tech**, Mumbai

Worked with multiple institutions like Emirates NBD (Dubai), FHLB (San Francisco), Letterone (London), IndusInd Bank (Mumbai) etc., to fix-up or implement a risk management solution for their trading team(s).

~Two year **sabbatical**, living with my family, training myself on Actuarial Sciences, and on how to be an overall professional. Yes, being an effective communicator, and being a respected professional, are **skills that ought to be studied**.

Dec 2010 – Support Engineer with **Calypso Tech**, Mumbai

Started as a support engineer for infrastructure and core application related problems for customers, ended up automating a lot of their support processes using Python.

Aug 2009 – Developer with **Knolskape**, Bengaluru

Built business simulation games and training portals, both as part of a team, and solo, for clients such as INSEAD Business School, JP Morgan among others.

Internships

1. CALT (Centre for Advanced Learning Technologies) at **INSEAD Business School**, Fontainebleau.
2. PSD (Practice School Division) at **BITS**, Pilani.
3. Business Intern with Hetero Drugs, Hyderabad.

Other

1. Graduated from BITS (Birla Institute of Technology & Science), Pilani, Rajasthan, with M.Sc. [Tech.] Information Systems, in the Summer of 2009.
2. If you've read this far, thank you.
3. Hobbies include reading on my Kindle, running around with my ~2yo and playing on my XBox with my wife.

Find me on [LinkedIn](#). Here's the [latest version of this document](#).
